Least Likely	0-1

4

1 **Vehicle Popularity:**
If vehicle is in the Top 10% of most popular vehicles seen at this location, score is (2) and highlighted green to indicate **High Popularity**
If vehicle is in the Top 11-20% of most popular vehicles seen at this location, score is (1) and highlighted yellow to indicate Medium Popularity **Medium Popularity**
If vehicle is below the top 20% of most popular vehicles seen at this location, score is (0) and highlighted red to indicate **Low Popularity**

2 **Vehicle Last Seen:**
If the vehicle has been seen within the last 30 days, score is (2) and highlighted green.
If the vehicle has been seen between 31 days to 1 year prior, score is (1) and highlighted yellow.
If the vehicle has been seen longer than 1 year prior, score is (0) and highlighted red.

3 **Time of Day:**
Label is determined when any time frame is equal to more than 10% of any other time frame.
Example: 10 total sightings: 3=Day, 5=Night, 2=Varied. Label = Night due to highest frequency, greater than 10%.

4 **Locator Score:**
Vehicle Popularity Score + Vehicle Last Seen Date = Locator Score.
Score is (4) and highlighted green to indicate likely to locate.
Score is (2-3) and highlighted yellow to indicate possible likelihood to locate.
Score is (0-1) and highlighted red to indicate least likelihood to locate.
